## SUMMARY

I'm a U.S. Army Veteran having worked as a fiber optics technician recently turned web developer who's seeking to offer his expertise in creating dynamic, responsive, user-friendly web applications. Having just acquired a certificate in full-stack web development from the Georgia Institute of Technology, I've gained a robust understanding of MERN Stack programming, and am freshly versed in HTML5, CSS, JavaScript, React.js, Node.js, and MongoDB, and am looking forward to expanding upon my existing skillset with a fast-paced, innovative company.

## EDUCATION

**Full-Stack Bootcamp: Certificate**                                      **NOV 2019 - MAY 2020**
**Georgia Institute of Technology**                                                **Atlanta, GA**
A 24-week, full-stack web development course that teaches HTML5, CSS3, JavaScript, jQuery, Node.js, Responsive Design, Heroku, Git, User Authentication, React.js, MySQL, MongoDB.

## TECHNICAL SKILLS

**Technologies:** HTML5, CSS3, JavasScript, React.js,  jQuery, Bootstrap, Node.js, Express.js, Handelbars.js,  MySQL &  MongoDB.

## WEB DEVELOPMENT EXPERIENCE

**tutorMe-** This app was developed with the idea to help others learn to code in a modern and simple way. The platform allows users to sign up as teachers or students. Teachers can make different classes about coding technologies and students can sign up for those classes.

- **Site URL:** *https://tutor-me-gq.herokuapp.com/*
- **Technologies Leveraged:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.j, Handlebars.js, Sequealize, MySQL, passport.js.
